Blackstone-NEY Ultrasonics to Unveil Innovative Cleaning Solutions at IMTS 2024

Jamestown, NY August 26, 2024

Blackstone-NEY Ultrasonics, a division of Cleaning Technologies Group and a global leader in cleaning and waste minimization technologies, is excited to announce its participation in IMTS 2024 in Chicago, Illinois. The event will take place from September 9 to 14, 2024, at Booth #338744, where the company will showcase a range of cutting-edge cleaning solutions.

At IMTS 2024, Blackstone-NEY will showcase its GMC ultrasonic cleaning systems, available in two standard sizes. These state-of-the-art systems are designed for versatility and high performance, featuring:

- **Larger Capacity:** The bigger model can accommodate parts with one dimension up to 35 inches and weighing up to 125 pounds.
- **User-Friendly Design:** Both units are completely self-contained, mounted on casters for easy mobility, and operate from standard power supplies, making them suitable for both in-place and utility cleaning.
- **Advanced Features:** Each system includes a pump with dual cartridge filtration, a surface sparger, automated controls for heat pump and ultrasonics, a lid, and a standard basket. Additionally, a drip pan attached to the tank allows for efficient draining of one basket while another remains in use.
- **Optional Stainless-Steel Package:** For applications involving aggressive caustic agents, an optional stainless-steel package is available to ensure chemical compatibility.

The GMC ultrasonic cleaning systems are ideal for a broad range of applications, including:

- Automotive Maintenance, Rebuilding, and Restoration
- Flood, Fire, and Storm Damage Cleanup
- Metallic and Ceramic Filter Cleaning
- Printing Equipment Maintenance
- General Maintenance Cleaning in Shop Environments
- Medical Precision Cleaning

“We are excited to present our latest ultrasonic cleaning technologies at IMTS 2024. Our GMC systems offer unmatched flexibility and performance, addressing the diverse needs of our customers across various industries. We look forward to demonstrating how these innovative solutions can streamline operations and deliver superior results.

CLEANING TECHNOLOGIES GROUP

RANSOHOFF • BLACKSTONE-NEY ULTRASONICS • CTG ASIA

About Blackstone-NEY Ultrasonics: Blackstone-NEY Ultrasonics, a division of Cleaning Technologies Group, is a renowned leader in state-of-the-art cleaning and waste minimization technologies.
